

Appendix A: Complete Project Prioritization List

Table A-1 shows the full list of projects, scoring criteria, and score value. Projects that received a score of eight (8) or higher, or were scored in the top 25% for a specific jurisdiction, were considered a priority project for the region and were included in the priority project maps in Chapter 4. Maps of projects that received scores lower than eight (8) can be provided by AAMPO staff as requested.
